

# BIO SUPERFOOD®

ONE SUPPLEMENT, TOTAL EMPOWERMENT!

“BioSuperfood, an exclusive blend of micro-algae, restores the inner genius of the body to assure optimum cellular nutrition. It sparks the body’s own revolution against aging and declining health.”

*Dr. Michael Kiriak, PhD, ND  
researcher and inventor of BioSuperfood*

BioSuperfood (BSF) is the perfect food addition to your daily regimen – high quality complete protein, all known vitamins, all known minerals and trace elements, thousands of enzymes, alpha and beta-carotene with antioxidant power hundreds of times more protective than vitamins E and C, chlorophyll and many others. BSF was researched for over 13 years on over 20 species of animals. The research, led by Dr. Michael Kiriak, demonstrates that BSF helps restore the “inner genius” of the endocrine (hormonal) system, which regulates all aspects of health. BioSuperfood’s practical applications range from thousands of farm animals to victims of the Chernobyl disaster and to over a decade of nutritional support for people in their everyday struggle with common or difficult health conditions.
